

Credit Name: CSE 2140 2nd Language Programming

Assignment Name: Digits Mastery

Describe the errors you've encountered while working on this assignment. What caused the error and how do you overcome the error?

```
package Mastery;

import java.util.Scanner;

public class DigitsM {
    public static void main(String[] args) {
        Scanner scanner = new Scanner(System.in);

        System.out.print("Please enter your number: ");

        int number = scanner.nextInt();

        int ones = (number/1)%10;

        int tens = (number/10)%10;

        int hund = (number/100)%10;

        System.out.println("The Ones place digit is: " + ones);
        System.out.println("The Tens place digit is: " + tens);
        System.out.println("The Hundreds place digit is: " + hund);
    }
}
```

For this mastery I did not receive any errors.
